

Thursday 15 August  
8:45am start  
Burramine Hall

## WHAT WE'VE LEARNT FROM OUR LONG-TERM COVER & COMPANION CROPPING TRIALS, PLUS LOCAL SOILS

We'll meet at the Burramine Hall (Yarrowonga-Katamatite Rd, Burramine) at 8:45 am, before moving out to the 'Stinking Goat' trial site.

### Program includes:

- **Soil pit** & soil moisture monitoring discussion: what's below the surface and how to look & feel to better understand your soil: *Sam North, NSW DPI*
- Tour of the long-term **companion cropping** trials looking at building resilient soils through plant diversity: *Jane McInnes, Riverine Plains & Dr Abe Gibson, Southern Cross University*
- The effect of **silicon application** to improve drought resilience: *Associate Professor Dorin Gupta, The University of Melbourne*

Morning tea and lunch provided.
