

Do you have a plan for when your water source is cut short?

Do you know how much water you can store on your farm?

Do you want to learn more about your livestock and domestic requirements?

## COME ALONG TO:

- Visit a farm demonstration dam & discuss options for improvements
- Know your water storage capacity
- Know your livestock water requirements & the benefits of water quality on animal performance
- Design your own farm water management plan!

For more info contact Sayra Samudio at [sayra@riverineplains.org.au](mailto:sayra@riverineplains.org.au) or 0406 713 352.
